

**EMERGENCY ACCESS:**

**You may have noticed that earlier in June a new electric gate was installed at the south end of the Nature Walk between Windemere and the Pines.**

**On June 11 a controlled burn in the Savannah's got out of control and Jensen Beach Blvd. was closed to traffic by the police. We immediately opened the gate on the emergency access road to allow Pines residents to get to their homes.**

**Please be informed that when Jensen Beach Blvd. or US 1 is closed to traffic Management and/or Board members will open the gate for residents to use the emergency access road to get to their homes.**

**At all other times the gate will remain closed to traffic, as it is an access road for emergency vehicles.**

**Thank you,**

**Ayse (I-shé) Esiner, LCAM  
For and on Behalf of the Board of Directors**
